

The Winston-Salem Foundation

Student Aid Deadlines

DEADLINES: April 15 or August 15

DESCRIPTION:

Financial aid funds that are under the purview of The Winston-Salem Foundation's Student Aid Committee have a deadline of either April 15 or August 15. All applications and supplemental items must be submitted by the appropriate deadline. Otherwise, the financial aid applications will be considered incomplete and will not receive consideration. The deadline is located on the guidelines page of each fund and may be accessed either by clicking on the name of the fund that is displayed once you submit the "Basic Information and Qualifying Criteria" section of the application, or by going to the ["List of scholarships and grants"](#) section from the Student's home page of the Web site.

What happens if you are eligible for consideration for financial aid with both deadlines? Here are some examples:

- if you are applying for financial aid that requires the application, grade transcript, recommendation, tax return and certification signature page that has a deadline of April 15, then you must submit these items by April 15
- if you are applying for financial aid that has a deadline of August 15, the above listed items will have already been submitted and you will additionally need to submit a copy of the student aid report and the financial aid award letter by August 15

Therefore, since you are eligible for consideration from more than one financial aid fund, you are submitting the application and supplemental items in response to two deadlines with some supplemental items due before others.

What happens if you are only eligible for consideration for financial aid with an April 15 deadline?

- if your eligibility is limited to financial aid with the April 15 deadline only, your application and supplemental items must be submitted by April 15

What happens if you are only eligible for consideration for financial aid with an August 15 deadline?

- if your eligibility is limited to financial aid with an August 15 deadline only, your application and supplemental items must be submitted by August 15. In this case, the application and all supplemental items do not have to be submitted until the later deadline of August 15 although you are encouraged to submit the application and supplemental items prior to the deadline

THE APPLICATION AND ALL REQUIRED SUPPLEMENTAL ITEMS MUST BE SUBMITTED BY THE DEADLINE.
